

# COVID-19: Guidance for all Students and Learners – 19 March 2020

As you will be aware, the Government has announced that all schools and colleges in the UK are to close from Friday 20 March as a response to the Covid-19 pandemic.

Following this guidance, all BPP buildings, including library facilities, will be closed to students with effect from **18:00 on Friday 20 March**.

All teaching, for all students and learners, during this unprecedented situation will be delivered online from Monday 23 March. Many of you will have transitioned to online teaching already and you will continue to receive the same quality of learning, materials and support.

We are intending that teaching will continue to be delivered online until at least Monday 27 April 2020. We will continue to review this and extend this period as necessary and communicate updates on this as the situation develops.

All examinations, including Computer Based Assessments and functional skills, will also be cancelled during this period. In addition, face-to-face supervised University exams will be cancelled until the end of May.

Please continue to check your VLE for the impact on your specific course.

If you have any further questions relating to Covid-19, please keep checking your VLE for further updates. You can visit the [FAQ section](#) on our website, or contact your tutor or coach for further information.

Thank you all for your understanding and commitment in these unprecedented times.
